

Design of PCR Test Kit for the Detection of Escherichia coli, Betalactamase Gene and Bacillus Species in Water Sources

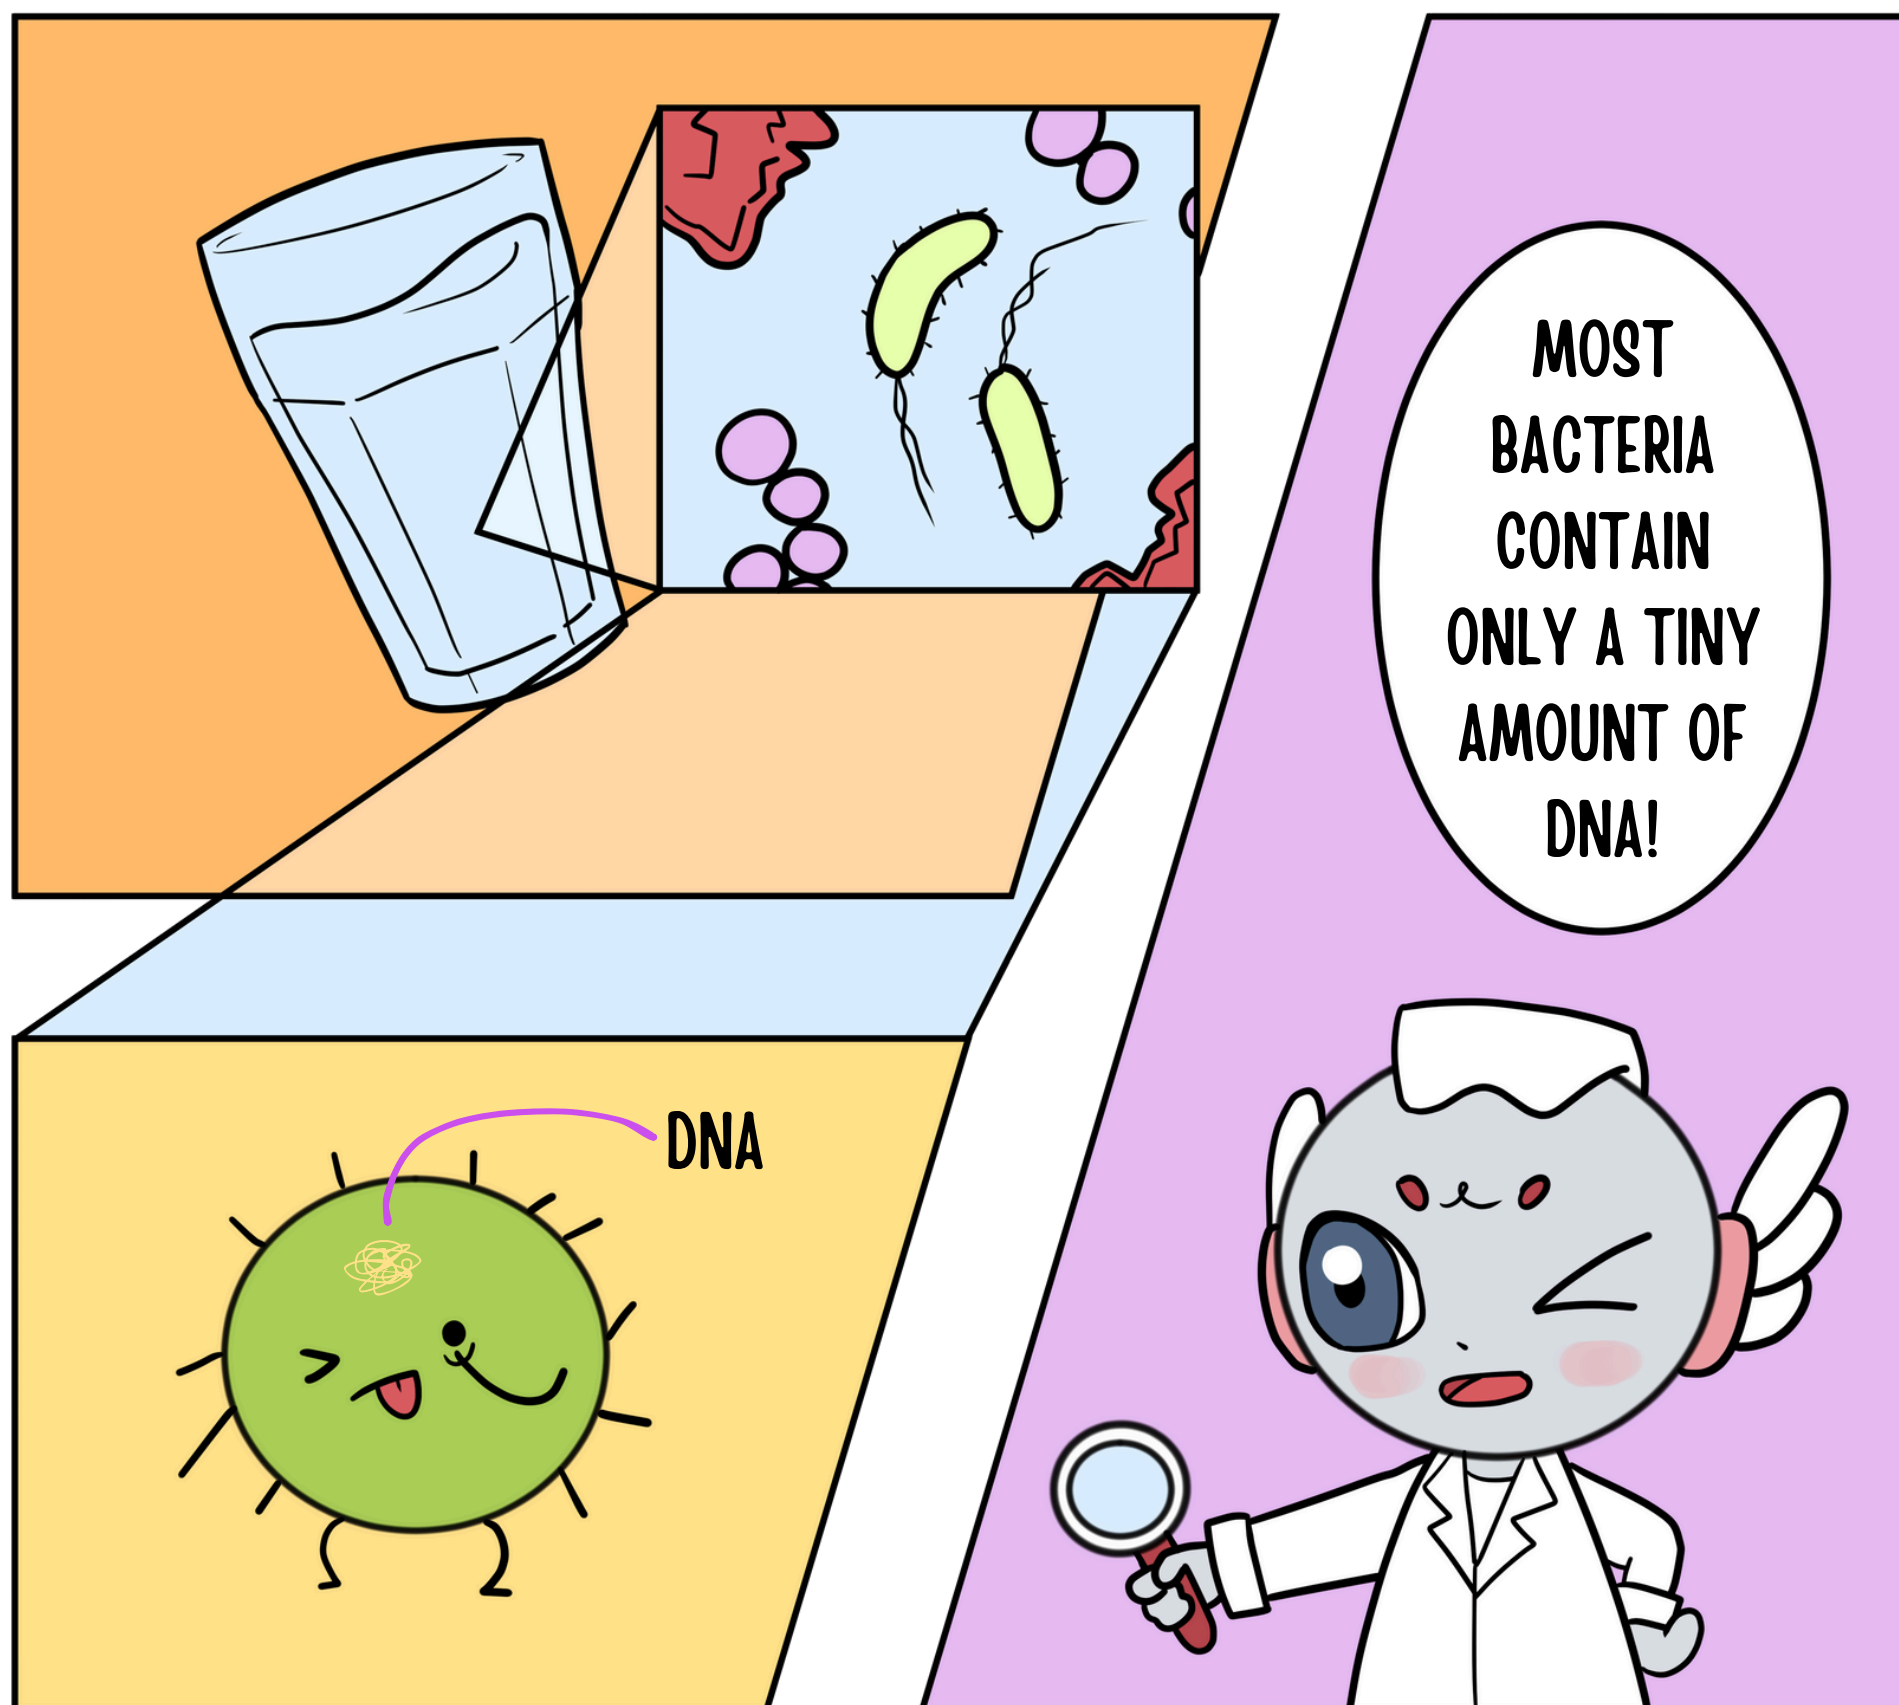

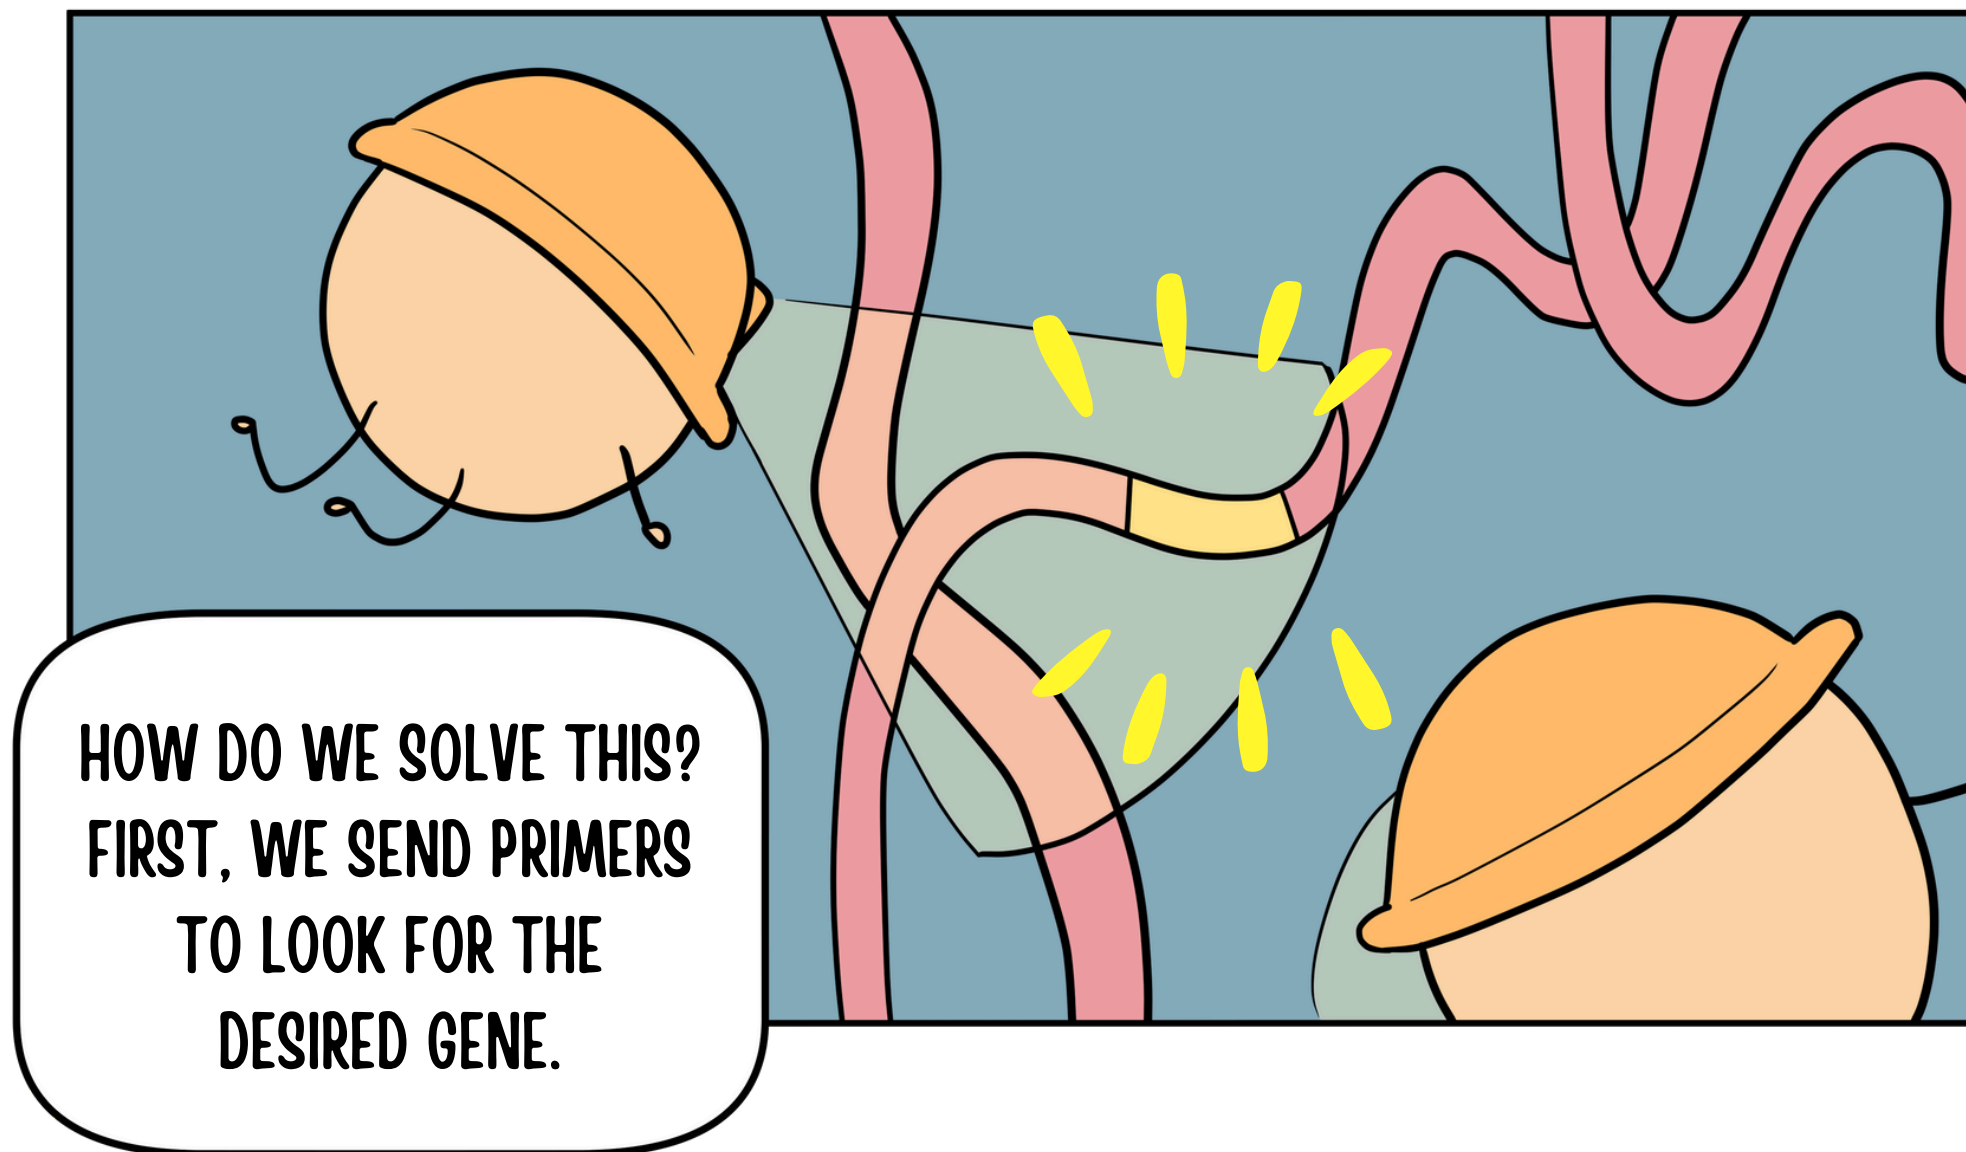

HAVE YOU HEARD OF A PCR TEST?

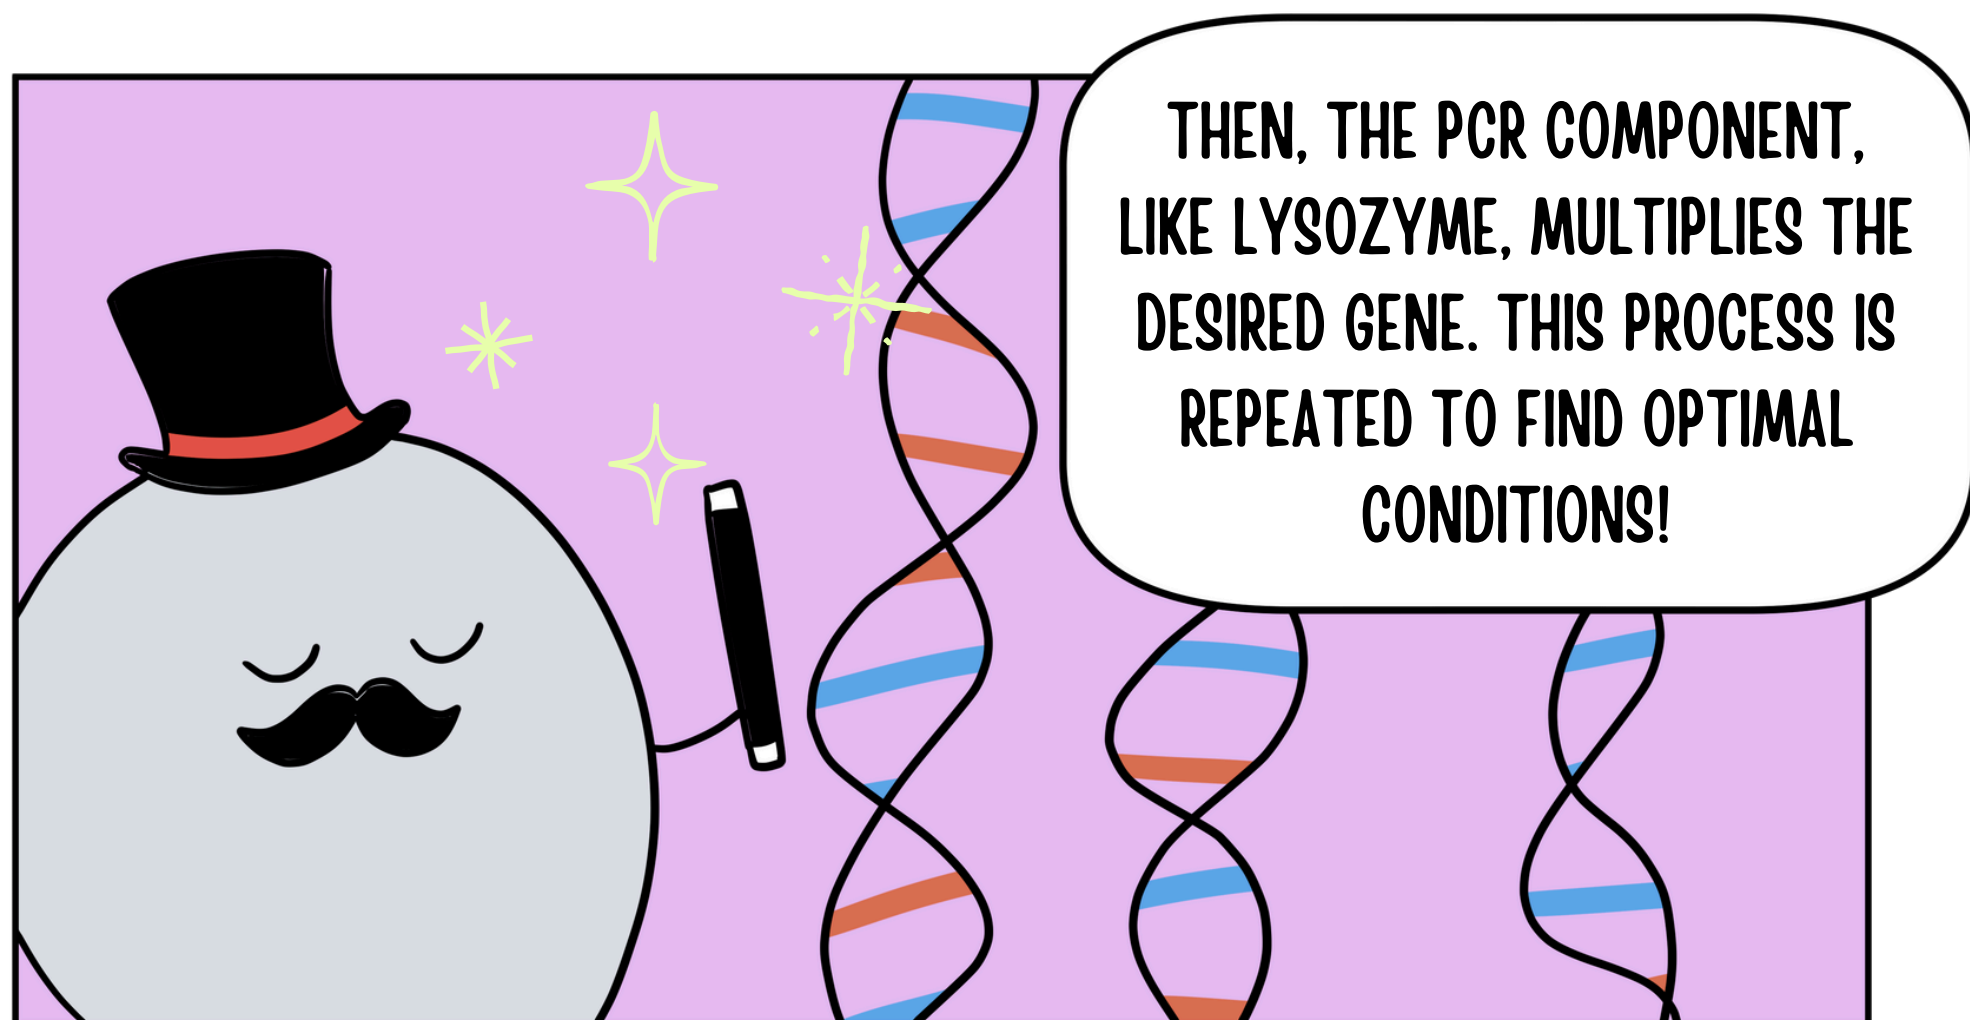

THE PCR TEST IS USED TO
MULTIPLY DNA TO FORM A
HIGHER CONCENTRATION, SO
AS TO TEST & IDENTIFY
BACTERIA!

BUT, THERE'S A
PROBLEM...

*Want to see more
of my magic?*

ARTICLE TITLE: DESIGN OF PCR TEST
KIT FOR THE DETECTION OF
ESCHERICHIA COLI, BETALACTAMASE
GENE AND BACILLUS SPECIES IN
WATER SOURCES

AUTHORS: CHONG ZHE ANG, YU HENG
CHEW, HUANRAN DONG

COMIC DRAWN BY: WAN YIXUAN
